

# British Burn Association

## National Standards for the Provision of Adult & Paediatric Burn Care

*2nd Edition*

*June 2023*

*(Revised October 2024)*

*To be reviewed in 2028*

## Structure of the 2023 Burn Care Standards

### Section and Topic Number:

This is standard B.03. This indicates that the standard is part of "Section B" and that this is the third standard within this section. A number of standards have sub-categories / topics, for example, B.03.A to B.03.E as shown below.

### Burn Care Standard:

For each standard, this section describes the requirement of the standard and sub-categories/topics.

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable (E / D)	Compliance and Evidence
<b>B.22</b>			<b>Training</b> All members of the burns MDT have completed:		<b>Compliance:</b> <ul style="list-style-type: none"> <li>All staff to have completed their mandatory training</li> </ul>
<b>B.22.A</b>	All Ages	CUF	Statutory and mandatory training in line with their Trust's policy <sup>[17]</sup>	E	<b>Evidence:</b> <ul style="list-style-type: none"> <li>Staff training records</li> <li>Evidence of an annual appraisal</li> </ul>
<b>B.22.B</b>	All Ages	CUF	Level 1 and Level 2 Safeguarding (Children and Adults) for all non-clinical staff <sup>[18]</sup>	E	
<b>B.22.C</b>	Children	CUF	Level 3 Safeguarding (Children) for clinical staff working with children, young people and/or their parents/carers as described in the Intercollegiate Document <sup>[18]</sup>	E	
<b>B.22.D</b>	Adults	CUF	Mental Capacity Act <sup>[19]</sup> and Deprivation of Liberty Safeguards <sup>[20]</sup>	E	
<b>B.22.E</b>	Adults	CUF	Training in psychological care appropriate to their role, using a tiered approach and provided by staff delivering psychological care in the Burn Care Service <sup>[21]</sup> . This should be undertaken on a 3 year cycle	E	

### Age Group

This column indicates the age group that the standard applies to. This can be either "Adults" or "Children" or "All Ages".

### Level of Care:

The 'C' in this column indicates that the standard applies to Burns Centres.

The 'U' in this column indicates that the standard applies to Burns Units.

The 'F' in this column indicates that the standard applies to Burns Facilities.

The 'N' in this column indicates the standard applies to the Burn Care Network.

A number of the standards provide reference to relevant supporting studies, or to nationally published guidelines for care. A full list of referenced documents is provided in Appendix 4.

The 'E' or 'D' in this column indicates that the standard is either Essential or Desirable.

### Evidence and Compliance:

For each standard, this box gives background information. In this case, it is criteria to ensure compliance with the standard and evidence to justify that that compliance has been achieved.

## National Standards for the Provision of Adult & Paediatric Burn Care

#### **Note:**

This 2023 Burn Care Standards report may be reproduced and used freely by NHS organisations, for the purpose of improving services for people with burns. No part of these standards may be reproduced by other organisations or individuals or for other purposes without the permission of the British Burn Association.

**In 2018, the British Burn Association (BBA) published the first 'National Standards for Provision & Outcomes in Adult and Paediatric Burn Care'.** Before this time, the standards of care for specialised burns had been provided and published under NHS ownership and it had been agreed that the future standards should be “owned” by burn care professionals and published by the BBA.

The 2018 document was the result of a collaboration between the BBA, NHS Specialised Service Commissioners and the Burn Care Networks covering England and Wales. The 2018 report set out the standards of care that were considered to be essential for high quality care and outcomes for patients, their families and carers. The document also describes standards that are desirable, offering examples of good practice and excellence.

**In the summer of 2022, work began on a first review of the 2018 document.**

A small “Task & Finish Group” was established, including representation from all areas of the burns multi-disciplinary team. Patients were represented by colleagues from survivor support groups and charities.

The product of this work, **'National Standards for the Provision of Adult and Paediatric Burn Care'**, builds upon and refines the 2018 BBA Standards.

*The section related to “Outcomes” has been removed from the 2023 document and in future, will be published as a separate BBA report.*

As was the case with the 2018 publication, the 2023 BBA Standards will be used by NHS England commissioners and the Major Trauma CRG, to inform the commissioning service specification for specialised burn care.

**The 'National Standards for the Provision of Adult and Paediatric Burn Care' covers the entire burn care pathway and aims to provide the means to measure the capability of individual burn services as a whole and the clinical network in which they operate. By defining standards, a governance framework is established against which it is possible to measure the quality of burn care that patients receive, regardless of their point of entry into a specialist Burn Care Service.**

The BBA will review 'National Standards for the Provision of Adult & Paediatric Burn Care' during the year 2027-28.

**Professor Odhran Shelley**  
FRCSI (Plast)  
*Director of the National Burns Unit*  
*St. James's Hospital Dublin*  
*BBA Chair 2022 – to date*  
*Co-Chair of the Burn Standards Review Group*

**Peter Drew**  
MB BCh, FRCS(Eng), FRCS(Ed), FRCS(Plast)  
*Welsh Centre for Burns & Plastic Surgery*  
*BBA Chair (2016 – 2018)*  
*Co-Chair of the Burn Standards Review Group*

**Peter Siggers**  
*Network Manager*  
*London & South East Burn Network*  
*Review Secretariat*

### The revised Burn Care Standards are organised in seven sections:

- **Section A: Patient Centred Care**, includes statements regarding communication, the planning of burn care and the support that patients and families can expect to receive;
- **Section B: The Multi-Disciplinary Team**, covers clinical leadership, access to surgeons, anaesthetists, nurses, therapists and specialist clinical support professionals to provide the full range of physical and psychosocial care for burn patients. This section also includes aspects of training, education and competence;
- **Section C: Inter-Reliant Services**, includes a description of the clinical services required for each level of service. This includes the availability and access to the wide range of medical specialities that are required to effectively manage burn patients. In addition to access to medical specialities this section also covers the provision of education for children while they are in hospital;
- **Section D: Facilities, Resources and Environment**, describes the facilities, resources and the environment necessary to provide specialised burn care. In this section, the following is addressed:
  - The type of and availability or access to an appropriately resourced burn bed;
  - Access to an appropriately designed and resourced operating theatre and the availability of specialist resources such as skin products, and
  - The provision of telemedicine and rehabilitation services.
- **Section E: Policies and Procedures**, outlines the core policies and procedures necessary to provide effective burn care. These include both operational and clinical policies that have a direct relevance to burn care;
- **Section F: Clinical Governance**, refers to audit, research, data collection and analysis. It also covers elements of communication and the necessity to formalise the distribution of current clinical guidelines and examples of best practice. This section defines the minimum activity required for each level of Burn Care Service.
- **Section G: Network and National Arrangements**. The statements in this section cover the guidelines and protocols that are required across the whole Burn Care Network.

**Each standard has a unique reference code which consists of a letter for the section and a number to identify the individual standard statement.**

To denote which standards are relevant to which level of service and to differentiate between adults & children the following descriptors are in use throughout the document.

Burn Care Services are stratified into Centres (C), Units (U) or Facilities (F) according to the complexity of case mix treated, with centres treating the most severe burn injury and facilities, the least severe. Individual standards may be relevant to one, two or all these levels.

To indicate whether a standard is relevant to a Centre, Unit or Facility, the letters C, U or F have been placed into a column titled, "Level of care". Similarly, the neighbouring columns indicate the age group that a specific standard must be applied to; a Children's service or an Adult service or both (applicable to all age groups).

**The format of the standards is intentionally designed to enable services and clinical networks to assess compliance.** Each standard must be assessed for evidence of compliance, resulting in:

- Yes (the standard is met) or
- No (the standard is not met).

In the case of the burn care standards, each one is indicated as either:

- **E (Essential)**, or;
- **D (Desirable)**

A standard that is shown as "desirable" is an indicative example of the highest, best practice standard of care that can be achieved.

**It is the opinion of the British Burn Association that all specialised Burn Care Services must be compliant with all of the "essential" burn care standards. Where a service is not compliant, the service and/or the NHS England commissioners must have an action plan in place, to resolve the situation in as short a period of time as possible.**

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
--------------------------	-----------	---------------	--------------------	------------------------------	-------------------------

#### Section A: Patient Centred Care

<b>A.01</b>			<b>Information for Patients, their Families and/or Carers</b>  Patients, their families and/or carers are offered written information. This takes account of the patient's individual wishes and enables them to make informed decisions about their care <sup>[1]</sup> .  If requested, information is provided on more than one occasion. It is clear, understandable, evidence based and culturally sensitive. The provision of information in any form is documented in the patient's case notes.  This information includes the following:		<b>Compliance</b> <ul style="list-style-type: none"> <li>• Clear, understandable, evidence based and culturally sensitive written information on all items listed is available to patients, their families and/or carers</li> <li>• This can be in physical or electronic format</li> </ul> <b>Evidence</b> <ul style="list-style-type: none"> <li>• Service leaflet providing information listed</li> </ul>
<b>A.01.A</b>	All Ages	CUF	Members of the Burn Care team	E	
<b>A.01.B</b>	All Ages	CUF	How to contact the Burn Care Service	E	
<b>A.01.C</b>	All Ages	CUF	Ward layout and routines	E	
<b>A.01.D</b>	All Ages	CUF	Burns and the possible physical, nutritional and psychological implications	E	
<b>A.01.E</b>	All Ages	CUF	The provision of a Plan of Care (verbal or in writing) – See A.02	E	
<b>A.01.F</b>	All Ages	CUF	Support services and groups available	E	
<b>A.01.G</b>	All Ages	CUF	Where to go for further information, including useful websites	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
--------------------------	-----------	---------------	--------------------	------------------------------	-------------------------

<b>A.02</b>			<b>Plan of Care</b>  A Multi-disciplinary team (MDT) plan of care is in place for each patient.  IP management is discussed and updated at regular MDT meetings to ensure the best possible care and outcome. All patients (and where appropriate their families and/or carers) have access to their care plan, which should include all the items listed below (A-E).  Exceptions to this may include children, patients detained under the Mental Capacity Act and instances where safeguarding concerns exist.  The Plan of Care includes:		<b>Compliance:</b> <ul style="list-style-type: none"> <li>A comprehensive MDT plan of care exists, containing contributions from medical, nursing, therapy, dietetic, social and psychology staff</li> <li>The Plan of Care should be structured and updated, as and when needed (paper or electronic record)</li> <li>The plan is legible, signed, dated and reviewed and has been agreed by the patient</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>A comprehensive plan of care is available in the patient's case notes</li> <li>There is written evidence that the plan has been discussed and agreed with the patient (and family and/or carer if appropriate)</li> <li>It is clear that all relevant members of the MDT have contributed to the plan of care</li> </ul>
<b>A.02.A</b>	All Ages	CUF	The name of the responsible Consultant	E	
<b>A.02.B</b>	All Ages	CUF	Plans for therapeutic interventions and rehabilitation, including physical, nutritional and psychological therapies	E	
<b>A.02.C</b>	All Ages	CUF	Potential treatments, side effects and outcomes	E	
<b>A.02.D</b>	All Ages	CUF	The consequence of accepting or declining any of the available treatment options	E	
<b>A.02.E</b>	All Ages	CUF	Expected discharge date, if this is known	E	

<b>A.03</b>			<b>Acute &amp; Follow-Up OP Care</b>  Patients have access to acute and follow-up outpatient clinics <sup>[2] [3] [4]</sup> .  Outpatient care can be in-person or by electronic / remote means if appropriate.		<b>Compliance:</b> <ul style="list-style-type: none"> <li>There are acute and follow-up outpatient clinics at which patients have access to members of the MDT</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>Description of OP service (including OP timetable) provided to patients, their families and/or carers</li> <li>Description of process for accessing members of the MDT</li> </ul>
<b>A.03.A</b>	All Ages	CU	Patients have access to burn-specific acute and follow-up OP clinics	E	
<b>A.03.B</b>	All Ages	F	Patients have access to acute and follow-up OP clinics	E	
<b>A.03.C</b>	All Ages	CUF	After discharge from the service, burns patients should have access, for life, to a burn care MDT in relation to sequelae of their burns or scars, through a streamlined referral pathway	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
<b>A.04</b>			<b>Support Resources and Information</b>  Burn-specific support resources are available and are highlighted to patients at all stages of their treatment <sup>[5]</sup> .  With guidance from the psychological care team, burn care staff facilitate access to the range of support resources available locally, nationally and internationally such as support groups, peer-support opportunities, charities, websites and events.		<b>Compliance:</b> <ul style="list-style-type: none"> <li>All patients have information and the opportunity to access age-appropriate support</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>Written evidence regarding access to a range of appropriate burns support resources.</li> <li>External organisations are registered with the Charities Commission</li> <li>Evidence of due diligence in assessing the suitability of external (non-NHS) services providing support to burn survivors</li> </ul>
<b>A.04.A</b>	All Ages	CUF	All resources managed by the Burn Care Service or provided by other NHS organisation are subject to appropriate governance and employment checks	E	
<b>A.04.B</b>	All Ages	CUF	The Burn Care Service is satisfied that all resources that are managed by external organisations and are recommended by the specialised burn service, are subject to appropriate governance and legislation	E	
<b>A.05</b>			<b>Discharge Information Following IP or OP Care</b>  Discharge documentation is available and includes current and future physical, social and psychological care. This may be by physical or electronic resources.  On discharge, relevant written information on the following is provided to patients, their families and/or carers:		<b>Compliance</b> <ul style="list-style-type: none"> <li>Relevant written information covering the items listed is available</li> <li>This is provided for all patients, family and/or carers if appropriate (IP and OP)</li> </ul> <b>Evidence</b> <ul style="list-style-type: none"> <li>A discharge plan that includes the items listed (paper or electronic record)</li> <li>The plan is evident in case notes</li> </ul> <p><i>Note: Standard E.09 requires a written guideline for discharge arrangements</i></p>
<b>A.05.A</b>	All Ages	CUF	Aftercare of the burn wound and scars	E	
<b>A.05.B</b>	All Ages	CUF	Follow-up appointment information	E	
<b>A.05.C</b>	All Ages	CUF	Information about the presence and implications of any MDRO Infection	E	
<b>A.05.D</b>	All Ages	CUF	Key contact details (including 24-hour access to the clinical team)	E	
<b>A.05.E</b>	All Ages	CUF	Nutritional care and recommendations	E	
<b>A.05.F</b>	All Ages	CUF	Pain and itch	E	
<b>A.05.G</b>	All Ages	CUF	Patient support resources (See A.04)	E	
<b>A.05.H</b>	All Ages	CUF	Psychological care, information and support available	E	
<b>A.05.I</b>	All Ages	CUF	Recognition of complications (including Sepsis) associated with a burn injury	E	
<b>A.05.J</b>	All Ages	CUF	Resuming activities of daily living	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
<b>A.06</b>			<b>Return to Education, Employment and/or Independent Living</b>  All patients are helped to return to education, employment and independent living, at a time when this is appropriate.  Where difficulties are encountered, an agreed therapeutic programme is provided <sup>[6]</sup> <sup>[7]</sup> <sup>[8]</sup> .  <i>Note:</i> <i>Some patients will not have been in education, employment or living independently prior to their burn injury and others may not be able to return to their pre-injury status or even to live independently as a result of their injury. In such cases, the patient may require the involvement of other agencies.</i>		<b>Compliance:</b> <ul style="list-style-type: none"> <li>There is a written guideline</li> <li>There is written evidence in the clinical notes that where appropriate, the MDT is complying with this guideline</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>The <i>Standards of Physiotherapy and Occupational Therapy Practice in the Management of Burn Injured Adults and Children 2022</i> are in use for rehabilitation</li> <li>There is evidence within the patient's case notes that return to education, employment and/or independent living, has been discussed and advised</li> <li>Patients with on-going needs have been referred to the relevant member of the MDT for additional support</li> <li>A formal plan for return to education, employment and/or independent living is documented for those patients with identified concerns</li> </ul>
<b>A.06.A</b>	All Ages	CUF	There is a written guideline covering patient's return to education, employment, independent living and community reintegration	E	
<b>A.06.B</b>	All Ages	CUF	Patients with on-going needs have been referred to the relevant member of the MDT for additional support	E	
<b>A.07</b>			<b>Burns Camp or Burns Club</b>  The Burn Care Service provides access to a Burns Camp or Burns Club <sup>[9]</sup> .  Staff from the Burn Care Service are given the time to participate and manage these activities.  The Burns Camp / Club:		<b>Compliance:</b> <ul style="list-style-type: none"> <li>All patients, their families and/or carers have the opportunity to access an age appropriate Burn Camp or Club</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>Burn Camp or Club Information leaflets or posters are displayed in relevant clinical areas</li> <li>Information available on burn service and/or network website about burn camp and clubs</li> <li>There is evidence of a pathway for patients and families to access the Burn Camp or Club</li> <li>There is evidence of staff participating in and managing Burn Camp or Club activities in work time</li> </ul>
<b>A.07.A</b>	All Ages	CUF	Is free to participants	E	
<b>A.07.B</b>	All Ages	CUF	Accommodates patients up to the age of 25	E	
<b>A.07.C</b>	All Ages	CUF	Adheres to the appropriate national standard.	E	
<b>A.07.D</b>	Adults	CUF	Provides awareness of opportunities to engage in social activities for burns service users over the age of 25	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
<b>A.08</b>	All Ages	CUF	<p><b>Transition of Care between Children's and Adult Services</b></p> <p>There is a formally recognised process to facilitate the transition of children and young people to the adult Burn Care Service.</p> <p>This is based on NICE Guidance and follows local policies and procedures <sup>[10]</sup>.</p>	E	<p><b>Compliance:</b></p> <ul style="list-style-type: none"> <li>There is a guideline referring to the transition of care from children to adult services that follows local policies and procedures</li> </ul> <p><b>Evidence:</b></p> <ul style="list-style-type: none"> <li>The policy or guideline for the transition of care from children's services to adult services</li> <li>Written evidence that the MDT is adhering to this policy is demonstrated through a review of relevant patient records</li> </ul>
<b>A.09</b>	All Ages	CUF	<p><b>Patient Views and Experience</b></p> <p>The Burn Care Service seeks the patient's views and experience of care.</p> <p>There is a focus on the process of care and how it impacts on the patient's and/or carer's experience.</p>	E	<p><b>Compliance:</b></p> <ul style="list-style-type: none"> <li>There are no validated national PREMs for burn patients available at the time of publication</li> <li>Multiple sources should be used to form a comprehensive picture of patient experience i.e. friends and family test, complaint and compliment cards, focus groups, and patient stories</li> </ul> <p><b>Evidence:</b></p> <ul style="list-style-type: none"> <li>Local tools are used for internal audit within the service</li> <li>Feedback is acted upon and used to inform service development</li> </ul>

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
--------------------------	-----------	---------------	--------------------	------------------------------	-------------------------

<b>A.10</b>			<b>Repatriation Information</b>  Patients are fully prepared, mentally and physically, for their transfer to another Burn Care Service.  The Burn Care Network has an agreed Guideline for repatriation and step-down to another Burn Care Service (see G.02).  On transfer, relevant written information on the following is provided to patients, their families and/or carers:		<b>Compliance</b> <ul style="list-style-type: none"> <li>A comprehensive plan for repatriation handover exists</li> </ul> <b>Evidence</b> <ul style="list-style-type: none"> <li>A repatriation transfer document is available in the patient notes</li> <li>A copy of the patient summary plan and plan of care is available in the notes</li> <li>A leaflet or fact sheet is available which provides details of the service into which the patient is being repatriated</li> </ul>
<b>A.10.A</b>	All Ages	CUF	Name of new Consultant receiving/accepting referral	E	
<b>A.10.B</b>	All Ages	CUF	Summary of recommendations for continued therapeutic interventions and rehabilitation	E	
<b>A.10.C</b>	All Ages	CUF	Details about the receiving Burn Care Service (location, contact numbers, etc)	E	
<b>A.10.D</b>	All Ages	CUF	The rehabilitation prescription, if appropriate (see E.10)	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence

### Section G: Network and National Arrangements

<b>G.01</b>		<b>Network Guidelines and Protocols – Immediate Care</b>			<b>Compliance:</b> <ul style="list-style-type: none"> <li>There are agreed burn care guidelines or protocols for all areas identified in the standard</li> <li>The guidelines and protocols are available in electronic format, on the service/Trust or network website</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>The Guidelines or protocols, with evidence of dissemination</li> </ul>
		The Burn Care Network has agreed and disseminated guidelines and protocols on immediate care of patients (adults & children) for use by pre-hospital care providers, ambulance, emergency department personnel and GPs covering the following:			
<b>G.01.A</b>	N	Contact details and thresholds for seeking advice from a Burn Care Service, including the assessment and management of patients with non-survivable burns <sup>[27]</sup>	E		
<b>G.01.B</b>	N	Airway and inhalation injury management (anaesthetic assessment prior to transfer)	E		
<b>G.01.C</b>	N	Fluid resuscitation	E		
<b>G.01.D</b>	N	Guidelines on referral to an appropriate Burn Care Service <sup>[27]</sup>	E		
<b>G.01.E</b>	N	Initial assessment and management of burn injured patients	E		
<b>G.01.F</b>	N	Need for surgery (escharotomy) prior to transfer	E		
<b>G.01.G</b>	N	Procedure to be followed if patient is not appropriate for admission or a bed is not available	E		
<b>G.01.H</b>	N	Transfer guideline including the resources required (equipment and staffing)	E		
<b>G.01.I</b>	N	Treatment of minor burns	E		
<b>G.02</b>	N	<b>Network Guidelines and Protocols – Follow-on Care</b>		E	<b>Compliance:</b> <ul style="list-style-type: none"> <li>There are agreed burn care guidelines or protocols for all areas identified in the standard</li> <li>The guidelines and protocols are available in electronic format, on the service/Trust or network website</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>The Guidelines or protocols, with evidence of dissemination</li> </ul>
		The Burn Care Network has agreed and disseminated guidelines and protocols on repatriation and step-down to another Burn Care Service (see A.10).			

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
<b>G.03</b>		N	<p><b>Major Incident and Mass Casualty Planning</b></p> <p>The Burn Care Network supports Burn Care Services and their host Trusts to integrate planning arrangements for major and/or mass casualty incidents involving burn injured casualties.</p> <p>Trust plans include reference to the most up-to-date NHSE Concept of Operations for Managing Mass Casualties <sup>[39]</sup> and the Burns Annex <sup>[40]</sup> for mass casualty and major incidents.</p>	E	<p><b>Compliance:</b></p> <ul style="list-style-type: none"> <li>There is reference to the management of burn casualties in the Trust's Major Incident Plan that refers to the most up-to-date NHSE Burns Annex</li> </ul> <p><b>Evidence:</b></p> <ul style="list-style-type: none"> <li>Copies of the Burns Trusts MIPs complying with this standard</li> </ul>
<b>G.04</b>		N	<p><b>Network and National Surge and Escalation</b></p> <p>The Burn Care Network should have in place a Standard Operating Procedure (SOP) for the management of surge and escalation in adult and paediatric burn critical care (adults &amp; children).</p> <p>This should be in accordance with the NHSE policy for the Management of surge and escalation in critical care services <sup>[41]</sup>.</p> <p>This SOP should be reviewed annually or sooner if national policy dictates.</p>	E	<p><b>Compliance:</b></p> <ul style="list-style-type: none"> <li>The Burn Care Network is operating surge and escalation arrangements that are in accordance with NHSE Management of surge and escalation in critical care services: Standard operation procedure for adult and paediatric burn care services in England and Wales</li> </ul> <p><b>Evidence:</b></p> <ul style="list-style-type: none"> <li>Copy of the Burn Care Network Surge and Escalation Plan</li> </ul>
<b>G.05</b>			<p><b>Network Strategies</b></p> <p>The Burn Care Network has developed network-wide strategies in the following areas:</p>		<p><b>Compliance:</b></p> <ul style="list-style-type: none"> <li>The Burn Care Clinical Network has developed and published the necessary strategies</li> </ul>
<b>G.05.A</b>		N	A Network Strategic Development Plan covering the subsequent 5 to 10 years. This links with the Service Development Plans (See F.07)	E	<p><b>Evidence:</b></p> <ul style="list-style-type: none"> <li>Strategies approved by the Burn Care Clinical Network Board</li> </ul>
<b>G.05.B</b>		N	Communications, including the Burn Care Network Website and other web-based resources	E	
<b>G.05.C</b>		N	Education and training for burns and non-burns healthcare professionals	E	
<b>G.05.D</b>		N	Public and Patient Engagement	E	

Section and Topic Number	Age Group	Level of Care	Burn Care Standard	Essential or Desirable E / D	Compliance and Evidence
<b>G.06</b>			<b>Mortality and Morbidity Audit</b>  The Burn Care Network conducts regular network-wide M&M audit. This includes all Burn Care Services within the Network and involves a clinical review of all mortalities (adults and children) from burn injury.  An action plan from these meetings is disseminated between all Burn Care Services.		<b>Compliance:</b> <ul style="list-style-type: none"> <li>There is a minimum of one morbidity and mortality meeting for the whole network held each year</li> <li>There is evidence that all deaths are reviewed within the network</li> <li>Unexpected mortalities are identified</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>The action plan / report from the network M&amp;M meeting</li> <li>Minutes of network wide mortality and morbidity meetings</li> </ul>
<b>G.06.A</b>	N		The Burn Care Network conducts regular network-wide M&M Audit meetings	E	
<b>G.06.B</b>	N		The Burn Care Network participates in the annual National Mortality Audit meeting	E	
<b>G.07</b>	N		<b>Network Assessment of the Burn Care Standards</b>  The Burn Care Network must work with the Burn Care Services to conduct an assessment of compliance against the BBA Burn Care Standards, through a process of self-assessment. This should be undertaken biennially, or more often if required (See <i>F.06.A</i> ).	E	<b>Compliance:</b> <ul style="list-style-type: none"> <li>There is evidence of the network self-assessment process</li> <li>A report must be provided to the Network Board</li> </ul> <b>Evidence:</b> <ul style="list-style-type: none"> <li>Network Board Report</li> </ul>

## APPENDIX 1

### BBA MEMBERS OF THE BURN STANDARDS REVIEW GROUP

▪ Amy Johnson	Senior Burns Nurse	▪ Kayvan Shokrollahi	Consultant Burns Surgeon
▪ Anna Turner	Clinical Psychologist	▪ Ken Dunn	Consultant Burns Surgeon
▪ Ascanio Tridente	Consultant Anaesthetist/Intensivist	▪ Laura Shepherd	Clinical Psychologist
▪ Brendan Sloan	Consultant Anaesthetist/Intensivist	▪ Liz Pounds-Cornish	Clinical Psychologist
▪ Catrin Pugh	Burns Physiotherapist	▪ Louise Campbell	Senior Burns Nurse
▪ Chidi Ekwobi	Consultant Burns Surgeon	▪ Louise Johnson	Senior Physiotherapist
▪ Clare Thomas	Senior Burns Nurse	▪ Mary Kennedy	Senior Burns Nurse
▪ David Barnes	Consultant Burns Surgeon	▪ Nicky Mackey	Senior Burns Nurse
▪ Elizabeth Chipp	Consultant Burns Surgeon	▪ Nicole Lee	Senior Burns Nurse
▪ Emma Hodgkinson	Clinical Psychologist	▪ Odhran Shelly	Consultant Burns Surgeon
▪ Emily Bridge	Senior Dietician	▪ Peter Sagers	Burn Care Network Manager
▪ Emily Huddleston	Advanced Burns Physiotherapist	▪ Peter Drew	Consultant Burns Surgeon
▪ Helen Watkins	Clinical Psychologist	▪ Peter Dziewulski	Consultant Burns Surgeon
▪ Ian Mackie	Consultant Burns Surgeon	▪ Polly Brooks	Patient Representation
▪ Jacky Edwards	Senior Burns Nurse	▪ Rachel Wiltshire	Senior Physiotherapist
▪ Janine Evans	Senior Occupational Therapist	▪ Sarah Gaskell	Clinical Psychologist
▪ Jo Myers	Patient Representation	▪ Tony Fletcher	Consultant Anaesthetist/Intensivist
▪ Karen Highway	Senior Burns Nurse	▪ Victoria Dudman	Burns Occupational Therapist

### Additional support and advice from:

▪ Bridie Grant - Clinical Psychologist
▪ Mike Jepson - Consultant Paediatric Anaesthetist
▪ Joanne Gaffing – Burn Care Network Manager
▪ Rosie Burnett - Senior Dietician
▪ Sharon Standen - Burn Care Network Manager

## BSRG TERMS OF REFERENCE

### Review of National Standards for Provision and Outcomes in Adult and Paediatric Burn Care

Burns Standards Review Group (BSRG) 2022  
Terms of Reference (Final) Version 2

- 1 **Name of Group** Burns Standards Review Group (BSRG) 2022
- 2 **Accountability** The BSRG is accountable to the British Burns Association (BBA) Executive Committee.
- 3 **Aims and Purpose** To review the existing (2018) BBA standards and outcomes report, and to produce an updated revision for publication in 2023.
- 4 **Scope**

The scope of this review includes all burn care standards and outcomes related to the delivery of specialised burn care, at services identified as specialised providers in the NHS Specialised Commissioning Specifications for burn care (adults and children's care).

Not in scope are aspects of the care pathway provided by non-specialised service providers and standards related to work of the Operational Delivery Networks.
- 5 **Objectives and Responsibilities**

The BSRG will:

  - Review the existing BBA standards and outcomes document;
  - Revise and rewrite the document to clearly indicate what is essential to good care and outcomes for patients (core standards) and what is good practice and aspirational to improve care, outcomes and experience for patients and their families;
  - Publish and present the final document to the BBA Executive Committee, for final approval and publication.
- 6 **Membership**
  - Joint Chairs: Mr Peter Drew and Mr Odhran Shelley
  - The Burns MDT should be widely represented on the BSRG. As a minimum, from each burns network area, the membership will include the following:
    - A burns consultant surgeon
    - A burns consultant anaesthetist / intensivist
    - A specialist senior burns nurse
    - Two AHPs (from two different professional groups - Physiotherapist, Occupational Therapist, Dietitian or Psychologist)
  - The following individuals will be invited to be members of the BSRG:
    - Ken Dunn, Burns Surgeon and lead for IBID
    - Pete Saggars (LSEBN – functioning as BSRG Secretariat)
  - An invitation will be extended to the Public & Patient Engagement (PPE) & Patient Advocate members of the Burns ODNs and CRG to identify two individuals who can represent the patients voice on the BSRG.

1

- 7 **Quorum**

Minimum representation needs to include:

  - The Chair or Nominated Deputy
  - Two burn surgeons
  - Two burns anaesthetists / Intensivists
  - Two burns nurses
  - Two AHPs (from two different professional groups - Physiotherapist, Occupational Therapist, Dietitian or Psychologist)
- 8 **Members responsibility**

It is the responsibility of BSRG members to ensure that recommendations are made in the best interests of burn care as a whole and are not influenced by locality or organisational bias.

Members will provide the BSRG with their personal expertise as informed by professional and local experience, ensuring their input reflects the breadth of understanding in their locality or specialty, avoiding purely personal opinion.
- Decisions**

It is expected that all decisions should be made by consensus. However, in the event that a vote is required then each attending BSRG member will have one vote and on any occasion when a majority is not achieved then the chair (or nominated deputy) will have the casting vote.
- 8 **Project / Task management**

It is expected that certain themes and topics may be allocated to small professional sub-groups within the BSRG. These will be discussed and agreed at the first meeting.
- 9 **Resources**

There are no specific financial resources available for this project. All meetings will be conducted as virtual meetings, on MS Teams.
- 10 **Frequency of meetings**

Provisional dates are:

  - 1) 21 September 2022
  - 2) 19 October
  - 3) 9 November
  - 4) 30 November
  - 5) 21 December
  - 6) 18 January 2023

The meetings will start at 14.30 and aim to finish by 17.00 at the latest.

## APPENDIX 3

### GLOSSARY: ABBREVIATIONS AND TERMS

#### ABBREVIATIONS

<b>AHP</b>	Allied Health Profession. Includes Physiotherapy, Occupational Therapy, Dietetics, Play Services.
<b>BACCN</b>	British Association of Critical Care Nurses.
<b>BBA</b>	British Burn Association.
<b>BC</b>	Burn Centre.
<b>BIRT</b>	Burn Incident Response Team.
<b>BMI</b>	Body Mass Index.
<b>BU</b>	Burn Unit.
<b>BF</b>	Burn Facility.
<b>CC3N</b>	National Competency Framework for Adult Critical Care Nurses Support Information (CC3N 2013).
<b>CPD</b>	Continuing Professional Development.
<b>CPE</b>	Carbapenemase Producing Enterobacteriaceae. (CPE) produce carbapenemase enzymes that can break down many types of antibiotics, making the bacteria very resistant.
<b>CRG</b>	Clinical Reference Group.
<b>DCC</b>	Direct Clinical Care.
<b>DH</b>	Department of Health.
<b>DNA</b>	Did Not Attend.
<b>DOS</b>	Directory of Services. Pathways DOS is an NHS secure web-based resource for monitoring bed capacity and capability.
<b>ED</b>	Emergency Department. Often referred to in the UK as an Accident & Emergency (A&E) Department.
<b>EMSB</b>	Emergency Management of Severe Burns, an educational course run by the BBA.
<b>ENT</b>	Ear, Nose and Throat.
<b>GP</b>	General Practitioner.
<b>HD/HDU</b>	High Dependency/High Dependency Unit.
<b>HES</b>	Hospital Episode Statistics.
<b>HMG</b>	Her Majesty's Government.
<b>HTA</b>	Human Tissue Authority.
<b>ICD10</b>	International Statistical Classification of Disease and Related Health Problems (Version 10).
<b>ICS</b>	Intensive Care Society.
<b>ICU</b>	Intensive Care Unit. <i>May also be referred to as an Intensive Therapy Unit or Intensive Treatment Unit (ITU).</i>
<b>ICNARC</b>	Intensive Care National Audit and Research Centre.
<b>IP</b>	In-Patient.
<b>IPC</b>	Infection Prevention and Control.

**ABBREVIATIONS** *continued*

<b>LSEBN</b>	London and South East of England Burn Care Network.
<b>M&amp;M</b>	Morbidity and Mortality.
<b>MBCN</b>	Midland Burn Care Network.
<b>MDT</b>	Multi-Disciplinary Team.
<b>MDRO</b>	Multi Drug Resistant Organism.
<b>MIP</b>	Major Incident Plan.
<b>MTC or MTU</b>	Major Trauma Centre or Major Trauma Unit.
<b>MUST</b>	Malnutrition Universal Screening Tool.
<b>MRSA</b>	Meticillin-Resistant Staphylococcus aureus (a type of bacteria that's resistant to several widely used antibiotics).
<b>NBBB</b>	National Burn Bed Bureau.
<b>NBCG</b>	National Burn Care Group.
<b>NBCR</b>	National Burn Care Review.
<b>NBCN</b>	Northern Burn Care Network.
<b>NHS</b>	National Health Service.
<b>NICE</b>	National Institute for Health and Care Excellence.
<b>OP</b>	Outpatient.
<b>OPCS4</b>	Classification of Interventions and Procedures.
<b>OT</b>	Occupational Therapist/Occupational Therapy.
<b>PA's</b>	Period of Programmed Activity (4 hours).
<b>PAS</b>	Patient Administration System.
<b>PHDU</b>	Paediatric High Dependency Unit.
<b>PICS</b>	Paediatric Intensive Care Society.
<b>PICU</b>	Paediatric Intensive Care Unit.
<b>PREMs</b>	Patient Recorded Experience Measures.
<b>PROMs</b>	Patient Reported Outcome Measures.
<b>PT</b>	Physiotherapist/Physiotherapy
<b>R&amp;D</b>	Research and Development.
<b>RCA</b>	Royal College of Anaesthetists.
<b>RCPCH</b>	Royal College of Paediatrics and Child Health.
<b>READ</b>	A coded thesaurus of clinical terms.
<b>RN</b>	Registered Nurse.
<b>RSCN</b>	Registered Sick Children's Nurse.
<b>SALT</b>	Speech and Language Therapy/Therapist.
<b>TSS</b>	Toxic Shock Syndrome.

## **ABBREVIATIONS** *continued*

<b>ST3</b>	Surgical Trainee level/year 3.
<b>SWBCN</b>	South West UK Burns Network
<b>TBSA/%TBSA</b>	(Percentage) Total Body Surface Area.
<b>VRE</b>	Vancomycin-resistant Enterococcus (bacterial strains of the genus Enterococcus that are resistant to the antibiotic vancomycin).
<b>WTE</b>	Whole Time Equivalent.

## **TERMS**

<b>Burn Injury</b>	The term 'burn' describes an injury caused by the transfer of energy to tissues, causing cell death and the destruction of tissue architecture. Cutaneous burns arise from a variety of causes, including contact with hot liquids (scalds) or surfaces (contact burns), fire, chemicals, electricity and radiation.
<b>Burn Care Service</b>	NHS services providing specialised care for patients with burn injuries. These are stratified into centres, units and facilities.
<b>Clinical Outcome</b>	The results of treatment.
<b>Family</b>	A patient's family is defined as a group of people drawn together by ties of blood, marriage (formal and informal) and/or close friendship.
<b>Guideline</b>	Principles which are set down to help determine a course of action. They assist the practitioner to decide on a course of action but do not need to be automatically applied. Clinical guidelines do not replace professional judgement and discretion.
<b>Outcome</b>	Something that happens as a result or consequence of an activity or process.
<b>Outreach</b>	The provision of specialist care provided outside of the normal clinical setting. This is usually at a hospital closer to where the patient lives but can also be delivered at a patient's home, other place of residence or another appropriate environment.
<b>Pathway</b>	The patient pathway describes the formal steps a patient takes throughout their specialised care, both as an inpatient and outpatient, and generally means from admission and initial treatment, to rehabilitation and discharge.
<b>Physical Function</b>	The ability to carry out actions considered essential for maintaining independence and other more complex activities which, while they may not be considered 'strictly necessary', may have a significant impact on quality of life. Comparison can be made with abilities that might be considered 'normal' for someone of the same age and sex.
<b>Policy</b>	A course or general plan adopted by an organisation, which sets out the overall aims and objectives in a particular area.
<b>Procedure</b>	A procedure is a method of conducting business or performing a task, which sets out a series of actions or steps to be taken.
<b>Protocol</b>	A document laying down in precise detail the tests or steps that must be performed.
<b>Procedure</b>	A procedure is a method of conducting business or performing a task, which sets out a series of actions or steps to be taken.
<b>Protocol</b>	A document laying down in precise detail the tests or steps that must be performed.
<b>Psychological</b>	The emotional, cognitive and behavioural presentation of an individual or group. In this document, this guides assessment and intervention provided by the psychological care team and acknowledges the importance of psychological knowledge, training and support within the wider burn care team and service.
<b>Psychosocial</b>	The combination of psychological, social, cultural and other environmental influences.
<b>Psycho-Social Function</b>	The psychological ability of an individual to function in relation to their social environment. This also takes account of the individual's sense of wellbeing.
<b>Tele-Referral and Telemedicine</b>	The use of telecommunication and information technologies to provide clinical healthcare when the patient and clinician providing specialist advice are at a distance from each other. It helps eliminate distance barriers and can improve access to medical services that would often not be consistently available in distant rural communities.
